

FOR IMMEDIATE RELEASE

RIVERLINK FERRY EXPANDED SERVICE AND SEASON

Delaware River Waterfront Corporation to manage RiverLink Ferry System

PHILADELPHIA, PA (May 5, 2015): Starting this spring, the Delaware River Waterfront Corporation (DRWC) will assume management of the RiverLink Ferry System providing cross River transportation between the Camden and Philadelphia Waterfronts. The expanded RiverLink Ferry System includes the 517 passenger ferry, Freedom, and at select times throughout the season will include three twenty-two passenger water taxis, creating a comprehensive marine transportation service. It is DRWC's goal to provide a seamless connection to both sides of the Delaware River to further enhance visitor and resident experiences.

DRWC is coordinating with Coopers Ferry Partnership on the Camden Waterfront to market the RiverLink Ferry System, thereby further linking the two neighboring waterfronts. Attractions and partners on both sides of the river including Adventure Aquarium, Battleship NJ, Camden Riversharks, Susquehanna Bank Center, Independence Seaport Museum, Great Plaza at Penn's Landing and others will help to encourage ridership through cohesive marketing messages. This system will provide a key component for daily visits and all major waterfront festivals and events. Visiting the attractions on both sides will now be quick, efficient and affordable.

With the help of its waterfront partners DRWC is committed to providing a quality visitor experience to all users of the ferry service and to help grow attendance at all of the attractions on both the Philadelphia and Camden waterfronts.
